

another great product from

the DMX tools company

## *DmXLAN Node 3 SM*

*Ethernet to DMX and DMX to Ethernet surface mount  
3 ports Artnet node with built in 2 port ethernet switch*

Node 3 is a universal connexion node. The Ethernet connexion on the rear will connect to the network, meanwhile 3 bi-directional DMX ports are available on the front. As well, a second Ethernet port will allow to connect, i.e., the lighting desk with Artnet port, a laptop running our dmXLAN control and management software or further nodes and switches on your stage.

Like all our ELC nodes, this unit is fully compatible and programmable thru our dmXLAN software (available for free download at [www.elclighting.com](http://www.elclighting.com)).

### Features with our dmXLAN software:

- Remote programming and monitoring
- DMX input options (Normal or Backup)
- DMX output options ( Normal, Merging in HTP / LTP or channel custom / Priority merging / Merging with channel by channel softpatch )
- Remote takeover of fixture parameters

### Connections

- 1x 10/100 mBit Ethernet port on Neutrik Ethercon
- 1x 10/100 mBit Ethernet port on RJ 45, on the rear of the unit
- 3x BiDirectional DMX ports on Female XLR5-pin.

Power supply: PoE ( Power over Ethernet ) from our DLS5DC or DLS8LX switches

ELC is manufactured in Gemert, Netherland  
Worldwide sales: ANIMA Lighting Ltd, Stand 20, CH-1897 Le Bouveret
