

dmXLAN switch8GB

DLS8GB

Product ref: DLS8GB

Highspeed Ethernet layer 2 switching engine

The dmXLAN switch8GB is based on a high-specification 10/100/1000 MBit Ethernet layer 2 switching engine with optimized controller CPU, featuring 8 programmable network ports. The dmXLAN switch8GB has been specifically designed for live entertainment applications where a mixture of data protocols would overload and saturate commercially-available network switches.

Switch8GB forms the backbone of the network distribution system. Easily create virtual networks for specific applications, like sound, video, lighting etc.

Setup fast redundant loops with fault reporting. 8 cat5 ports with speed up to 1GB, with optional fiber optic modules on ports 7 and 8. Easy programming on local display or remotely with our dmXLAN V4 software

Features include:

- Real-time backup loops
- Local display
- 8 GigaBit ports
- 2 SFP cages for Fiber Optic modules
- Supported by dmXLAN V4 software

Dimensions	19"x1Ux160mm, 2.5kg [boxsize:570x280x72, 2.9kg gross]
Power	100-240VAC 50/60Hz, fixed mains lead
Connections	8 Ethernet ports RJ45 on Neutrik Ethercon, 2SFP cages for Fiber Optic modules
